

Understanding the Board of Education

The Nebo Board of Education is a seven-member group of citizens who are elected to four-year terms. The Board members serve the patrons and students of Nebo District during their term. The Board is empowered by the State Constitution with the “general control and supervision” of public education within the Nebo School District boundaries.

Duties include:

- Setting educational policy that guides the maintenance and operation of all the district’s schools and programs.
- Setting policies and making decisions affecting the curriculum, employee relations, budget, and school construction.
- Delivering the best education for the greatest number of students while being fiscally responsible.
- Making policies consistent with community standards and customs.
- Acting with legal and ethical responsibility to do what is best for the greatest number of students in Nebo School District.

The measure of our success is how we affect students, individually and collectively.

Your Feedback is Welcome

The Board of Education believes feedback provides valuable insights and encourages public involvement. The Board will listen to patrons’ views on school district matters in the regular monthly Board meetings.

- There is time set aside near the beginning of each meeting to listen to patron comments.
- The Utah Open Meeting Law prohibits the Board from taking action on items that do not appear on the agenda. Therefore, the Board will seldom respond during patron comments in the meeting beyond asking clarifying questions; issues are typically referred to the district administrative staff for review and fact finding.
- As follow-up, a patron may expect a response from the staff on behalf of the Board of Education.

If you wish to address the Board of Education in an upcoming meeting, please:

- Sign up online by visiting www.nebo.edu/board-education.
- Limit your feedback to three minutes for each individual or five minutes for a group.
- Conduct yourself in a respectful and courteous manner.
- Provide copies of any prepared statements for the clerk and Board.
- Understand that the public comment is not a debate, an interactive question/answer session, or a dispute resolution forum; but an opportunity for you to express your comments, suggestions, and concerns to the Board for their information and consideration.

Board of Education Members

Our Mission & Vision

We engage, empower, and collaborate to ensure student success.

We ENGAGE students as active participants in school and in the community.

We EMPOWER students to acquire and develop knowledge, skills, and talents.

We COLLABORATE to promote safety, student involvement and achievement.

We prepare STUDENTS for SUCCESS in school and life.

Board of Education Values

American public schools are part of our Nation's strength, and the Nation's best hope for the future. We believe that public schools must provide experiences necessary for citizens to self-govern. Your interest and involvement in your local school is important.

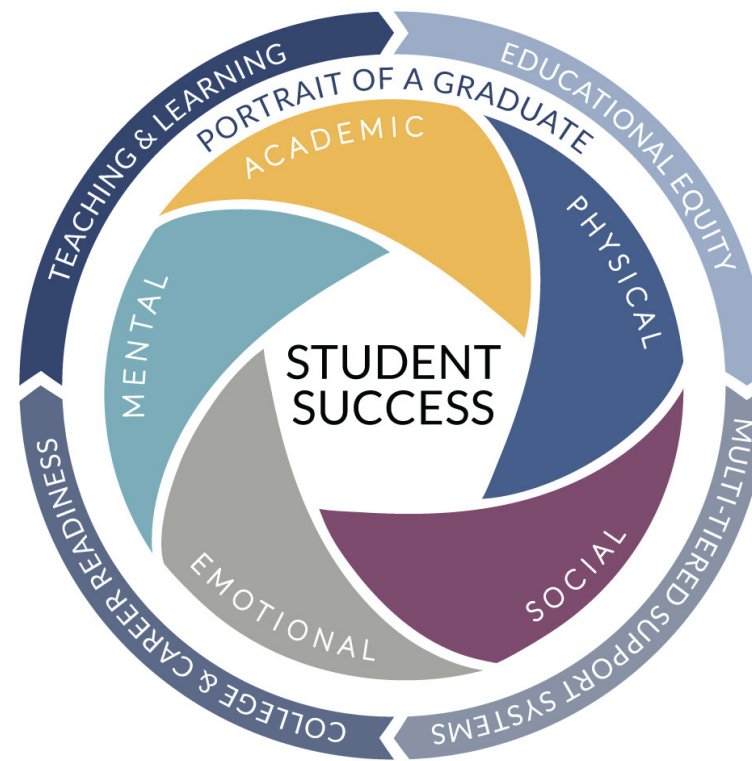

The Nebo School District Board of Education believes in three basic principles:

- All students have equal access to educational programs.
- School personnel have a responsibility to nurture the children entrusted to their care.
- Everyone has a stewardship for the schools in their individual educational communities.

We welcome all students and believe schools are better when parents, teachers, and administrators partner together. We believe that in partnering together, we can move educated young people forward.

Areas of Focus

Nebo School District's Board of Education actively participates in committees along with parents and district administrators. Students, parents, and community work together to ensure the academic, behavioral, and social wellbeing of students while also supporting Nebo employees. For detailed information, please go to: <http://www.nebo.edu/board-education>.
