Minutes from the previous meeting were shared.

Bethany Ericksen, a teacher at Rees shared a Health Awareness program from the district. She asked our feelings on what we should do as a school to help promote health lifestyles. We felt that quarterly assignments and sign-offs would be good for the students. She also shared recommendations from the district regarding birthday treats. We will encourage non sugar items to celebrate student's birthdays.

The Council then reviewed the proposals submitted from teacher teams. We decided to hire 1-3 trustlands technicians to work with teachers and students.

Meeting adjourned until October 5, 2009 @ 11:40.
