USDA Guidelines for Accommodating Special Dietary Needs

Disability-Schools and agencies participating in federal nutrition programs **must** comply with requests for special dietary meals and any adaptive equipment with a documented disability and completed request form.

Non-disability-Schools and agencies participating in federal nutrition programs **may** comply with requests for non-disabling medical conditions. Accommodations will be made on a case-by-case basis. However, if accommodations are made for a specific medical condition, complete requests for the same medical condition must be accommodated.

Fluid Milk Substitutions-Fluid milk substitutions apply to non-disability requests. Schools and agencies participating in federal nutrition program **may** accommodate complete requests with a USDA approved non-milk equivalent. If accommodations are made for one student requesting a fluid milk substitute, accommodations must be made for all students requesting a fluid milk substitute.
