PANORAMA STUDENT SUCCESS

We are in the middle of the spring WELLBEING SURVEY for students! This is an excellent time to take a look at Panorama to see how your students are doing across multiple indicators.

The Student Success dashboard (teachers view-see images below)
- Gives a complete picture of each student's academics, attendance, behavior, and well-being progress in school every day
- Allows educators to create, update, and progress monitor interventions to ensure students are growing
- Serves as an Early Warning System and MTSS and Intervention tracker
- Helps schools measure Social Emotional Learning through research-backed surveys, and displays that data alongside other indicators to give a full picture of the whole child.

Check it out & talk with your Admin for more info

WELL-BEING SIGNATURE PRACTICE

Embed engaging strategies throughout the experience
Link to activity

- **Pass It On**: This activity enables participants to share ideas with each other in a quiet, focused way. It is particularly useful after a round of active engagement, and is especially appreciated by more introverted people.
- **Well-being focus**: The activity helps to develop the Self-Awareness skill of Self-Efficacy, Relationship Skills (Building Working Relationships, Social Engagement), and Responsible Decision Making (Reflection).
