

Dear Parents/Guardians:

Due to nation-wide shortages of food items, supplies, and labor, our Child Nutrition Program has been affected in several ways. We would like to inform you of current circumstances pertaining to the remainder of the 2021-22 school year:

- Foam trays will be replaced by paper plates as trays become unavailable.
- Meals, although free, are not unlimited. Federal guidelines dictate that each student receive one free breakfast and one free lunch per day. Please make sure your student understands that they may pass through the line once, according to normal procedure. This will help ensure our district has food to last the school year.
- Due to the national food shortage, we are receiving incomplete deliveries from our vendors daily. While full meals will always be served, choices may be more limited and your students' first choice may not be available each day.
- We will continue to meet the needs of students requiring special dietary accommodations.

Thank you for your understanding and patience as we navigate these issues. We will continue to do our best with the resources available.

Sincerely,

Spencer Sainsbury, Coordinator  
Child Nutrition Department

This institution is an equal opportunity provider.
