

New check-in process with the patient portal upgrade

Register your account

Your new My Premise Health patient portal is now live. You can register for your account through the My Premise Health app or online at mypremisehealth.com.

New visit instructions

Prior to your first visit after the portal upgrade on 03/07/2022, you will be asked to complete new patient paperwork.

- To save time, complete this paperwork within your My Premise Health account. Before you arrive for your visit, you'll log in to mypremisehealth.com or through the app. Select eCheck-in to complete the required forms and verify your health information.
- If you are unable to provide your information online, please plan to arrive 10 to 15 minutes prior to your appointment time to complete all the necessary paperwork at the center.

Future visits

After your initial visit and eCheck-in are complete, you will be asked to confirm and update your information as needed for future appointments.

Why the change?

Visit members.premisehealth.com/carehere to learn more about My Premise Health and what the transition means for you.
