

Provider List, Workers' Compensation

If an employee experiences a work-related injury or illness that is limb or life threatening, medical care should be obtained from the nearest medical facility.

If an employee experiences a work-related injury or illness that is not limb or life threatening, the employee must call "Company Nurse" at 1-888-375-0279 to report the injury and to obtain a medical referral to a listed provider. **Employees who seek initial medical care (from any provider) for a non-limb or non-life threatening injury or illness, without first obtaining a referral from "Company Nurse," will be totally responsible for the cost of their initial medical visit and could be responsible for the cost of subsequent visits.**
