Color Variations (Blue, Black, or White) Note acceptable use with or without transparency of the mountain.

Rules of Use (to maintain brand consistency)

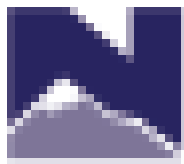

Use the various versions

Do NOT modify or squish

Use the right size

* There are scalable or "vector" versions available.

Change hue only to mimic transparency

* Mountains in both examples are the same color.

Use Sufficient Contrast

Use of Transparency should minimize distraction

Colors

Hex: #262262
RGB: 38, 34, 98
HSB: 242, 65, 38
CMYK: 100, 100, 30, 21

The lighter portions of the logos are the same color with 50% transparency which makes it lighter. In some instances, transparency is not possible and can be approximated ... or avoided by using the solid version.
